EDUCATION

University of Florida

Masters in Computer and Information Sciences

Gainesville, FL

Aug 2024 – May 2026

Relevant Courses: Advanced Data Structures, Distributed operating Systems, Mathematics for Intelligent systems

EXPERIENCE

Elite Solutions, India

Jan 2024 – May 2024

Full- Stack Trainer | ReactJS, NodeJS, SQL, Git, Firebase, Postman, Docker

- Educated 5000+ students across 10+ colleges on cutting-edge technologies including ReactJS, NodeJS, and various databases, achieving a 95% course completion rate.
- Designed and implemented an integrated coding and quiz platform, resulting in a 40% improvement in student performance and a 60% increase in practical coding skills.
- Developed 100+ comprehensive resource materials, leading to a 35% increase in student self-study hours and a 25% improvement in project complexity.
- Mentored and managed 100+ student projects, with 30% selected for national-level competitions and a 15% increase in job placement rates.
- Conducted 50+ hands-on workshops, increasing student engagement by 70% and practical application of learned concepts by 55%.

AlcoveX Product Studio, India

Jul 2023 – Nov 2023

Software Engineer Intern | Angular, Hasura, PostgreSQL, GraphQL, Postman, Git, Docker, AWS S3

- Designed, developed, and maintained 5+ critical modules for the "Interview Buddy" platform using Angular, increasing overall system reliability by 40%.
- Optimized application performance, reducing loading times by 55% and improving user engagement by 30%.
- Implemented code quality improvements that decreased bug reports by 35% and reduced maintenance time by 25%.
- Authored comprehensive technical documentation for 80% of the application, facilitating smoother onboarding and knowledge transfer.
- Led deployment processes for QA, Staging, and Production environments, achieving a 99.9% success rate and reducing deployment time by 60%.

AdmitMe International, India

Apr 2023 – Jun 2023

Software Developer Intern | ReactJS, Bootstrap, Supabase, GraphQL

- Led a team of 4 developers in successfully delivering application management software, resulting in a 30% increase in client productivity.
- Implemented agile methodologies, resulting in a 40% reduction in development cycle time and a 20% increase in on-time project delivery.
- Spearheaded the integration of automated testing, increasing code coverage from 60% to 95% and reducing post-release bugs by 70%.
- Introduced continuous integration and deployment (CI/CD) pipelines, accelerating release cycles from monthly to weekly and improving team productivity by 50%.

Medha Learning Foundation, India

Jun 2022 – Dec 2022

QA Intern | Playwright, Pytest, Lambda Test

- Automated 200+ test cases using Playwright and Pytest, increasing test coverage by 40% and reducing manual testing time by 60% for mobile and web applications.
- Executed 500+ functional and regression tests, identifying and documenting 50+ critical bugs, resulting in a 30% improvement in overall software quality.
- Collaborated with development team to resolve 75+ high-priority issues, contributing to a 20% decrease in post-release defects.
- Maintained detailed test documentation, improving knowledge transfer efficiency by 50% and onboarding time for new team members by 30%.

PROJECTS

G-Community | ReactJS, Firebase, NodeJS, WebSocket API

- Architected and developed G-Community, a college entrepreneur networking platform using ReactJS and Firebase, featuring real-time messaging and collaborative tools, resulting in 5000+ active student users, 30% increase in student-led ventures.

OpenAI Voice Chat Smart Bot | Angular, OpenAI API, NodeJS, SQL, Docker, Postman

- Engineered an AI-powered voice chat bot using Angular, NodeJS, and OpenAI API, containerized with Docker, achieving 95% accuracy in natural language processing.

TECHNICAL SKILLS

Programming Languages & Technologies: Python, C++, Java, JavaScript, SQL, PL/SQL, HTML, CSS, NodeJS, ReactJS, Angular, Docker, Postman, Flask, Firebase, Playwright, Pytest, AWS S3, Hasura.

Databases: MySQL, AWS, PostgreSQL

Others: Data Structures, Algorithms, Distributed Operating Systems, DBMS, SQL, Object Oriented Programming, Agile Methodology, Software Development lifecycle.
